

G-44(M) Update:

Tactical Supply Support Activity (SSA) Facility

Mr. Claude Matsui

Program Coordinator for Readiness &
Modernization Support, OCE, &
Chief, Combat Readiness Support Team,
HQUSACE

Mr. Ravin Howell

G-4 Integration Manager, OCE &
Combat Readiness Support Team, HQUSACE

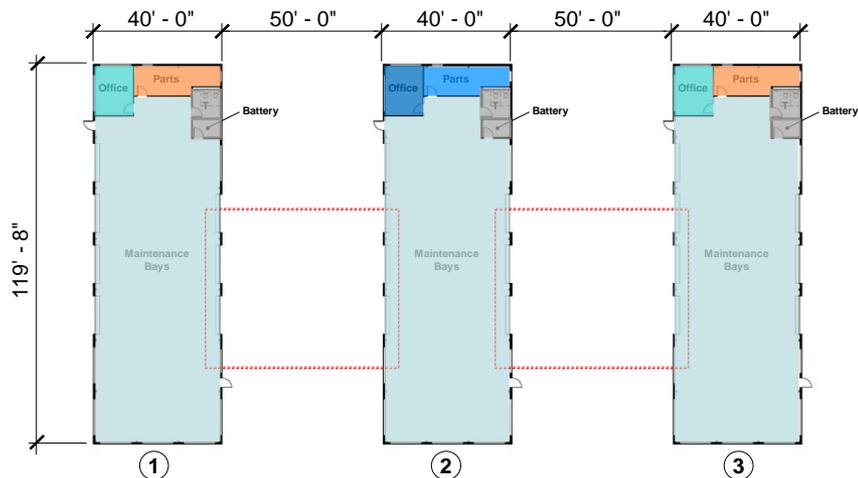

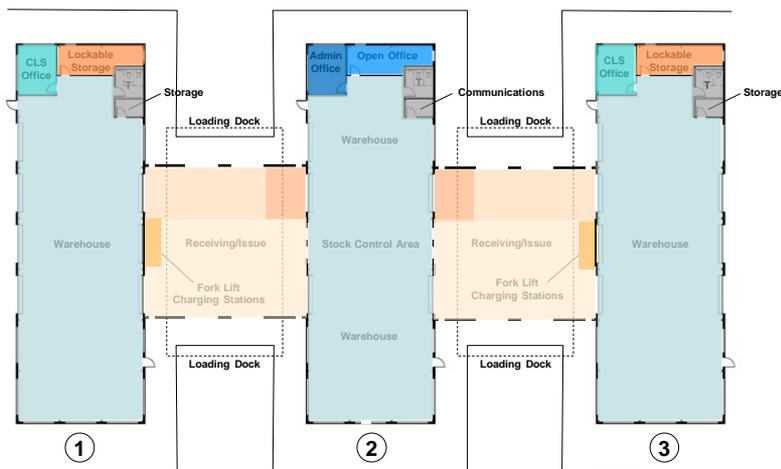

Facility Reuse Analysis

TEMF 3: Rectangular

Fort Bragg, NC

TEMF 3 – Existing Floor Plan

Tactical SSA – Conceptual Floor Plan Tier 1

Planning Alternative A1 – Tier 1

- Construct new Receiving/Issue Bays w/Dock Canopy between existing TEMF Buildings
- Utilize the existing Maintenance Bays in Buildings 1, 2, and 3 for Warehousing
- Utilize the existing Office and Parts Storage in Building 2 for Warehouse Administrative Offices
- Occupy the existing Office in Buildings 1 and 3 for Contractor Logistic Support (CLS) Office
- Utilize existing Parts Storage for Lockable Storage in Buildings 1 and 3
- Convert existing Battery Storage Room to General Storage in Buildings 1 and 3; and, Communications Room in Building 2. Existing Toilets to remain.

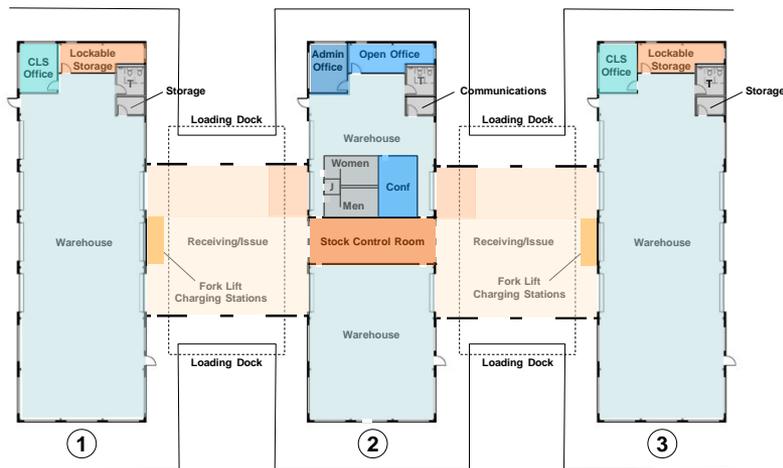

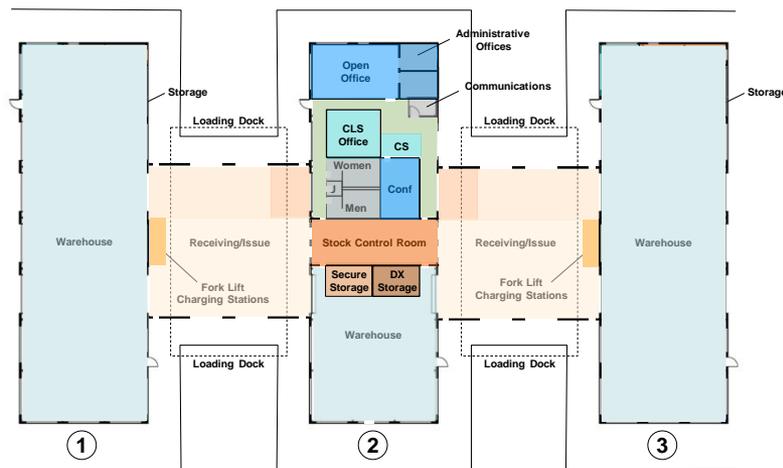

Facility Reuse Analysis

TEMF 3: Rectangular

Fort Bragg, NC

Tactical SSA – Conceptual Floor Plan Tier 2

Tactical SSA – Conceptual Floor Plan Tier 3

Planning Alternative A1 – Tier 2

- Construct new Stock Control Room in existing Maintenance Bay, Building 2.
- Construct new Conference Room and new Men's and Women's Toilet Rooms in existing Maintenance Bay, Building 2.

Planning Alternative A1 – Tier 3

- Demolish Tier 1 Administrative Offices and Toilet Room in Building 2. Construct new expanded Administrative Offices, Contactor Logistic Support Office, and Customer Service Area in Building 2.
- Construct new Secure (Lockable) Storage and DX (Exchange) Storage Rooms in existing Warehouse Building 2.
- Demolish Tier 1 CLS Office, Secure (Lockable) Storage, Toilet and General Storage Rooms in Warehouse Buildings 1 and 3. Fully renovate warehouse space in Buildings. 1, 2 and 3 to provide enhanced warehouse capabilities.

MISSION

Field an Army automated information system as the primary tactical logistics enabler to support Army and Joint Transformation of Sustainment using an Enterprise Resource Planning (ERP) system.

Reengineer current business processes to achieve end-to-end logistics and provide unclassified feeder data to applicable C2/Joint systems.

Implement tactical financial processes relating to supply and maintenance.
